Please see notes on back of this list for important information on the use of commercial pesticide applicators in San Miguel County. 596-6911

This list is provided to San Miguel County residents as a courtesy by the San Miguel County Weed Control Program. The list may not be complete as other qualified vendors may be working in the area without the knowledge of the San Miguel County Weed Control Program Manager.

Commercial Pesticide Applicators are licensed by the State of Colorado and not by San Miguel County. Although this list is compiled by San Miguel County, the County does not endorse or recommend the work performed by any particular listed vendor. Information was provided by the vendors and was not independently verified. Please note that prices and services may vary widely from vendor to vendor and the wise consumer is advised to compare prices, products and services.

In addition to state licensure each individual providing service is certified in specific categories. The license categories are listed. No applicator may make any application in any category for which no certification is held. This list is updated annually and new categories may have been added without our knowledge.

It is unlawful in Colorado for any person or company not registered as such to make applications of any pesticide- restricted use or general use- and charge for such application.

No individual holding a private pesticide applicators card can make applications and charge for such applications- charging includes pay for services, barter and other exchanges of goods or money.

Pesticides is a broad category including herbicides, insecticides, fungicides, rodenticides, wood preservatives and other products designed to prevent, destroy or kill any pest.

For more information please contact the San Miguel County Weed Control Program at 970 327-0399.
